LETTER OF APPRECIATION

ARSHIYA SINGHA
March 8th 2021

It was great to have your participation in AIBA. From all the team members of PROFOUND WRITERS, hearty-congratulations for all of the heights you ascended to this date. The selection jury immensely felt euphoric while going through all the certificates that you had provided us.

A writer can produce a bewitching artwork by beautifully painting their farrago of thoughts on a blank canvas with their enticing vocable and admirable notions. There's a saying that "PEN IS MIGHTIER THAN THE SWORD" in extension it "IF ONE KNOWS HOW TO USE IT WISELY" will become appropriate for today's situation. A writer, who shares his or her valuable thoughts to this society or about the dream world, which is a land of paradise to replenish the enervated souls with new hankerings and to bring smile on someone's face with untiring efforts is very rare and we strongly hope that you will be in that list who emits the vibes of positivity through the write ups and scatter the happiness in all the directions for a lovely world.

Hereby, we hope you will continue to PEN (Pen Every Notion) with your PEN and inspire everyone by expressing what is in your mind. Wish you all the happiness ahead and many more pinnacles to conquer.
